Re: Property Taxes - MacBride Museum

This institution is not run by high paid government employees.

Financially, it scrapes by from year to year by the revenue and donations it takes in.

It has been documenting Yukon history for decades and preserving precious artifacts. It is a place of education for Whitehorse, The Yukon, Canada and the World.

Surely we have enough savvy not to close down this institution by sinking it with ungodly high taxes.

This is our letter of support for MacBride Museum to ask the City of Whitehorse to waive the property taxes once and for all.

Yours truly,
Gordon Rydet
Owner / Manager
